Always try to pay the total amount due to avoid interest and late payment fees.

To improve the functionality and stability of the Indian financial system, the Government of India and Reserve Bank of India (RBI) asked all banks and financial institutions to share consumer data with Credit Information Companies (CICs). Based on this data, these companies, or credit bureaus, generate a credit score and a credit report for each borrower, which is shared with banks and financial institutions as well as the borrower.
